

CREATIVITY IN BOARD GAMES AND PUZZLES

Founded in 1995, Hobon Printing was formerly Weidong Arts and Crafts Factory, which mainly produces decals for ceramics, wooden products and so on. At present, our products cover various paper products such as books, packaging, board games, puzzles, etc,. With the development of century, Hobon Printing constantly introduces new equipment and technology, and becomes a comprehensive printing enterprise.

In 2015, Hobon Printing moved into a new modern factory. The new factory has a floor area of 12,000 square meters, 120 employees, and a large number of brand-new equipment, including Heidelberg four-color printing machine, automatic die-cutting machine, automatic box gluing machine, and automatic packaging line. Through these years of continuous efforts, the company's turnover has exceeded \$10 million, and our products have been exported to Britain, Italy, the United States, France, Japan and the other countries.

By realizing that quality is always the life of an enterprise, Hobon has established an advanced quality control system, to monitor the whole process from raw materials to mass production, from packaging to logistics, to ensure that all products delivered to customers are fully qualified. We believe that Hobon will become your trustworthy partner with its attitude of continuous improvement and innovation.

ABOUT HOBON

PRODUCTS
